

Modern Les Paul Standard Trans Metal

Icy, Metallic looks - Warm Tone!

This limited run Modern Les Paul Standard comes after the success of the core colors of this new Custom Shop platform, which features an Apex headstock for improved stability and a fully-chambered body, keeping the guitar balanced, resonant and extremely lightweight. The artful transparent metallic finish toes the line between classic appeal and high-fashion edge. The playing experience is the biggest thrill of all, as each guitar's long neck tenon and all solid-wood construction provide sustain and buttery warm tones like only a Custom Shop instrument can provide.
